

# S.S.S. CURES SKIN DISEASES

When the blood is pure and healthy, the skin will be soft, smooth, and free from all blemishes and eruptions; but when some acid humor takes root in the circulation, its presence is quickly manifested by some form of skin disease. The skin receives its necessary nourishment and strength from the blood. When, however, this vital fluid becomes a humor-laden stream, it can no longer preserve the healthy, natural appearance of the skin, but by its acrid, impure nature continually irritates and inflames the delicate tissues and fibres and keeps the cuticle in a diseased and disfigured condition. External applications cannot reach the blood, and therefore are beneficial only for their ability to reduce inflammation, and assist in keeping the parts clean. To cure any skin trouble the blood must be purified of the humors that are causing the trouble. S. S. S. drives out the humors from the blood so that the skin, instead of being irritated and diseased, is nourished by a healthy, cooling stream. S. S. S. goes down into the circulation and removes every particle of impure matter, all acids and humors, and restores the blood to its normal, pure condition, thereby curing every form of skin disease or affection. Book on skin diseases and any medical advice free.

## HARBOR, RIVER AND MARINE NEWS

### Shipping Transactions and Notes of Interest Along The Bay Front.

The schooner Luck H., which was recently launched from the marine railway, where she underwent repairs, is taking a cargo at Baylen street wharf and will probably proceed to Andrews today.

The river steamers Belle, Capt. Fritz, Eugene and Vernon were all taking cargo yesterday afternoon, and will sail this morning.

The steamer Mantoo, Capt. McLaughlin, entered yesterday from Mobile, with a good list of passengers. The vessel, which missed her trip last week on account of repairing her machinery, took on a heavy cargo

put in first-class trim for the contest. The captain and crews of each ship believed their respective vessels could reach the Breakwater first, and it was an exciting race around Cape Horn. But in the run north the Sewall was unable to continue the pace set and fell behind. The Atlas made the run in three months and eighteen days.

The Atlas is the first of a fleet of sugar-laden vessels which are to come here from the Hawaiian Islands.—Philadelphia Public Ledger, July 25.

**Frank of Tropical Storm.**  
The four-masted schooner James B. Drake has been at McKie's shipyard in East Boston undergoing repairs for one of the most peculiar accidents in the history of navigation. While cruising in southern waters the schooner was caught in a cyclonic storm which revolved around the vessel in such a manner that all four of her masts were twisted in their steps. Plainly some rotary motion of wind and storm had caught the spars in a leverage, forcing them just half way around. No explanation is offered for their not coming out of the vessel. All four, however, are standing and carried sail all the way to port. No other damage was received during the storm, and although the masts were turned they were not injured in the least.—Marine Journal.

## MAN-EATER IS CAPTURED

One Weighing 300 Pounds Is Landed By Party at Pass Christian.

The New Orleans Picayune of yesterday says:

A man-eating shark, measuring 8 feet 6 inches and weighing 300 pounds was caught Saturday at Pass Christian on a line. The hero of this exploit was Charles T. Ballard, of Louisville, Ky., who, together with his friend, Norvin T. Harris, ran down to the Pass Saturday bent upon tarpon fishing.

Unsettled weather disarranged the programme. There were no tarpon in sight, and no prospect of any. Nothing daunted, the two sportsmen started out to catch something big, and carried with them the usual implements.

Attracted by the large size and savory character of the bait used for the occasion, a shark hove into view and gleefully followed in the wake of the fishing boat, waiting for things to come its way. They were not long coming. The bait was enlarged to tempting proportions and his shark-sharp made a gulp of it. He got it all right, but there was a string tied to it of stout proportions, and at the other end was a man with a rod and reel. The shark made a game fight, but the man and reel were too much for him, and he was forced to succumb.

That this was no easy task may be gathered from the fact that it took two hours and fifteen minutes of skillful effort on Mr. Ballard's part to vanquish the monster.

In the meantime a school of pilot fish, which are always to be found with the man-eating shark, gave Mr. Harris an opportunity to exhibit his skill, and he lost no time in seizing it. He gave the pilot fish a little spout all of their own, and with light tackle succeeded in landing seven of them. Both of these catches are notable achievements, and were the cause of interested comment on the part of local lovers of the rod and reel.

## MEMBERS OF LEGISLATURE

Complete List of Those Composing Florida's Law-Making Branch.

Many requests have been received by Mr. George W. Fisher, of DeLand, secretary of the state democratic executive committee of Florida, for a list of members of the next legislature, nominated in the recent primaries, and who will be elected in the general election next November, says the Jacksonville Times-Union. Mr. Fisher writes the Times-Union that he has been unable to comply with these requests and asks that this paper publish the list.

Herewith is given a complete list of all members of the state senate and house of representatives, composing the Florida legislature of 1909. The senators from the even numbered districts are "holdovers," and those from the odd numbered districts were nominated in the recent primaries. The only senators whose terms had expired and who were re-elected were L. C. Massey, of Orlando, Joseph H. Humphreys, of Bradenton, and L. W. Zim, of St. Augustine.

## TRUST PLANS "UP IN SMOKE"

Dreams of the Yellow Pine Kings Are Disputed at Chicago.

Chicago, July 29.—The gigantic lumber merger planned this week in the Auditorium Hotel by twenty-five leading lumbermen, transformed itself into a passing dream, and the good angels, Frederick E. Weyerhaeuser, America's lumber king, and Edward Hines, of the Hines Lumber Company, have departed for their homes, disappointed, but hopeful.

The reason for the abandonment of the project, which was to be capitalized at \$200,000,000, was given by J. B. White, of Kansas City, Mo., and J. A. Freeman, of St. Louis, who said the committee decided it was impossible to effect the consolidation because the lumbermen and foresters would not listen to a union.

"It's a dream," said Mr. White. "Mr. Weyerhaeuser as much as told me that a number of men met in St. Louis a few weeks ago and appointed a committee to present the plan. When the committee met here the folly of the project gradually dawned upon them."

An attempt will again be made to launch the merger, according to several lumbermen who are attending the convention at the Beach Hotel.

The meeting of the association was devoted to the discussion of the depression in lumber circles. All reported that business had opened up remarkably within the last few months.
